

Talk Time Minutes

Subject: Science	Date: 6.6.19
Subject Leader: Miss Scammell	

Children attending: Gabriella, Zayn, Willow, Joshua, Charlie G, Paige M, Annie, Megan, Mitchell, Ariella M, Logan, Gabriel.

Minutes

1. Do you enjoy your Science lessons?

Most of the children answered yes. It was interesting to hear what the children thought Science was. We had a long discussion about how there are lots of jobs that use Science. Some of them our grown-ups at home do.
There were around 7 children in the school who said they do not enjoy Science because it can be a challenge.

2. What core science knowledge can you have you learnt this year?

ice melting, parts of flowers, dinosaur knowledge, how plants survive, living/non-living, seasons, environments.
Children were able to recall many facts.

3. Have you learnt any new words in Science this year?

Omnivore, herbivore, carnivore, observe, experiment, absorb, sink, float, prediction, freezing, hypothesis, transparent, primary colours, evergreen, deciduous.
Children knew that them learning new words has been a whole school focus this year.

4. When do you or have you learnt outside of the classroom?

Drawing, outdoor learning, riding bikes, running and sports.
Children acknowledged that they go outside in all subjects sometimes more in others.

5. Would you like to do more outside? What do you suggest?

Look at wildlife, colour mixing, create things, arts, maths.

Minutes

6. What experiments have you done this year?

Sinking and floating, ice man, cress, sunflowers, ice melting.

Most children in KS1 knew what an experiment was.

7. What do you think could make your Science lessons even better?

More experiments, some suggestions were:

magnets, melting different materials, roast marsh mellowes, making fire, paper aeroplanes, bringing animals and insects, magnets.

Annie from Puffin class suggested that children could earn badges in Science.

3 children from Science club attended and said that they would want Science club to run again next year.
